High Intensity LED Head & Fog Lamp Bulb

H4

H8/11/16

HB3/4

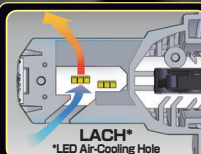

HIR2

PSX26W

ATS*
*Asymmetrical Top-Shade

Asymmetrical top shade "ATS" offers improved visibility on the walkway side when driving at night and reduces glare to oncoming traffic. ATS also allows for sharp beam of light. (H4 type only)

Large surface area of LED bulb to maximize heat release. Patented "LACH" technology is incorporated to generate upward airflow for cooling LED bulb body (H4 type only).

Rotation Mechanism Incorporated

Angle Adjusting Screw

H8/11/16 HB3/4 HIR2

Anti-rotation Screw

H8/11/16 HB3/4 HIR2

Angle adjustment feature (rotation mechanism) allows for easy adjustment of the correct LED light direction.

Anti-rotation screw on fitting side of fog lamp bulb to prevent spinning around in case the angle adjusting screw becomes loose. (PAT.P)
