

Effector

High Intensity LED Head & Fog Lamp Bulb

High Intensity
LED

4000K
NEW ADDITION

ATS*
*Asymmetrical Top-Shade

Asymmetrical top shade "ATS" offers improved visibility on the walkway side when driving at night and reduces glare to oncoming traffic. ATS also allows for sharp beam of light (H4 type only).

Rotation Mechanism Incorporated

Angle adjustment feature (rotation mechanism) allows for easy adjustment of the correct LED light direction.

H8/11/16 or HB3/4 or HIR2 type

LACH*
*LED Air-Cooling Hole

Large surface area of LED bulb to maximize heat release. Patented "LACH" technology is incorporated to generate upward airflow for cooling LED bulb body.

Anti-rotation Screw

Anti-rotation screw on fitting side of bulb to prevent spinning around in case the angle adjusting screw becomes loose. (PAT.P)

H8/11/16 or HB3/4 type
