

SIDE STORAGE PANEL

Rear Window Side Storage Panel
 Designed exclusively for JIMNY JB74
 Best way to organise your items

Protects your rear window when loading with large items.

This product is made of steel with powder coating finish and can be used to attach magnetic products.

Improved stability with upper part secured at three points, ensuring the panel does not bend and remains firmly in place.

This IPF side storage panels allow for affixing Molle pouches/accessories and help to array them.

Easy installation with no modifications.

This product is simply attached by bolting it to the assist grip and the utility nuts on bottom of the rear window, and hooking it to seatbelt part.
