■EXR-01L2

Detailed product information can be found here

Roof Rack OPTION Wind Noise Reduction Plate

By fitting to the front end of the roof rack unit, wind noise is reduced.

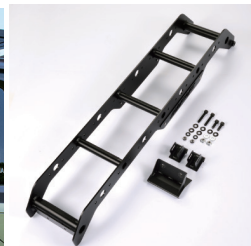

■EXR-02P

Detailed product information can be found here

EXP Rear Ladder for Jimny

Jimny (JB64) / Jimny Sierra (JB74) Specific Rear Ladder
Original design utilising extra-thick 4mm Aluminium Plate (Design Registered)

■EXL-01

Detailed product information can be found here

Door Handle Protector for Jimny (Design Registered)

Prevents scratches and dirt caused by fingernails during door opening and closing. Not only does it prevent damage, but its leather-like design also makes it ideal for dressing up the door handle area.

The material used is high-quality PVC, equivalent to that used in genuine parts adopted by car manufacturers.

Interior and Exterior Lighting Components

LED Headlights and Fog lights The next generation of ultra-compact Bulbs

Enhanced temperature management with dual fan system. Features a special LED array in a triangular configuration. Additional short beam ensures brighter illumination at close range during both high and low beam operation!

BULB TYPE: H4
Power consumption: 12V, 27/27W
Colour temperature: 6500K
Luminous flux: 5000/4200 lm (equivalent to two bulbs)

Head ■ **E341HFB**

Detailed product information can be found here

The evolution of the ultra-compact entry-level model. Superior brightness, heat dissipation structure, and thermal management technology.

BULB TYPE: H8/11/16
Power consumption: 12V, 25W dedicated
Colour temperature: 6500K
Brightness: 4200 lm (equivalent to two bulbs)

フォグ ■ **E301HFB**

Detailed product information can be found here

LED Position lights, Reversing lights, and Number plate lights

Position ■ **505W**

Ultra-compact short type achieving equivalent size to genuine bulbs
Approximately 5 times brighter than genuine bulbs!

BULB TYPE: T10
Power consumption: 12V 1.2W
Colour temperature: 6500K Brightness: 250lm

Detailed product information can be found here

Backlight Bulb ■ **701BL**

Prioritises instantaneous power & ultra-high diffusion, providing clear rear visibility the moment it illuminates (1 unit included)

BULB TYPE: T20
Power consumption: 12V 7W
Colour temperature: 6500K
Luminous flux: 1600lm

Detailed product information can be found here

Number plate light ■ **305N**

Compact short body with approximately five times the brightness of the original!
Omnidirectional LED number plate light (1 unit)

BULB TYPE: T10
Power consumption: 12V 1.2W
Colour temperature: 6500K Brightness: 250lm

Detailed product information can be found here

Rear LED Interior Light Bulb

For Indoor Use

Approximately five times brighter than standard models!
Featuring ultra-high-brightness LEDs condensed into a compact body.
BULB TYPE: T10/T8/T9
Power consumption: 12V 1.2W
Colour temperature: 6500K Brightness: 250lm

■ **505R**

Detailed product information can be found here

Front LED Interior Bulb

For Indoor Use

Approximately four times brighter than standard models!
Features ultra-high-brightness LEDs.
BULB TYPE: T10x31/T8x28(29)
Power consumption: 12V 0.8W
Colour temperature: 6500K Brightness: 160lm

■ **506R**
